

ONE MORE RECEIVER.

Another Topeka Man Who is in the Fashion.

C. T. McLELLAN MADE RECEIVER

Of the Leavenworth, Topeka & Southwestern Road—What His Intentions Are—Other Railroad Matters.

The appointment of C. T. McLellan, division superintendent of the Santa Fe at this place, to the receivership of the abandoned Leavenworth, Topeka & Southwestern by Judge Caldwell yesterday, was a surprise to his friends here and to the gentleman himself. He was first apprised of it by the dispatches of this morning. Mr. McLellan was seen by a STATE JOURNAL reporter today and said he had received no official communication from the court and did not know yet just what would be done. It is probable that a mixed train one way each day will be put on from Leavenworth to Meriden to connect with the Santa Fe's trains morning and evening.

The road is 47 miles in length, and has not been in operation since fall. Mr. McLellan has not been over the road for several years, and does not know exactly what will be needed in the way of putting it in shape. He will make a trip of inspection as soon as he has heard from the court, and will take charge immediately, with his headquarters here.

This will of course insure more direct communication between Topeka and the people of Leavenworth and Leavenworth counties, and we will catch considerable business from that quarter that has been going elsewhere.

ALL ALONG THE LINES.

Railroad News Items Interesting to Readers and the Public.

The Santa Fe has rented thirty freight and passenger engines from the Baldwin Locomotive Works of Philadelphia, for a term of thirty months, and the Missouri Pacific has rented twenty-seven freight engines for the same period. This costs the Santa Fe \$294,051.71, and the Missouri Pacific \$262,053.84, payable in monthly installments. The average rent of a Baldwin locomotive is about \$330 a month.

O. M. McConnell of the Santa Fe, returned from Denver today. He has been before the Colorado board of railway assessors, and has secured a reduction in the assessed valuation of his road in that state of \$600,000.

Dr. J. R. Fay of the Santa Fe, who has just returned from Oklahoma, says that there is a fine prospect for a good crop there.

Strong City is rejoicing in the well founded belief that the Santa Fe will soon build it a new \$6,000 stone depot.

South Mound, Neosho county, has petitioned the state railroad commissioners to compel the M. & T. to maintain a station and telegraph office at that place.

It seems now that the Southern Pacific will mix in some in the rate war between the Western Passenger association and the Union Pacific. It has made a demand on the association that after tomorrow its full season class rates be paid from Ogden west. The Chicago lines reply that if the restoration be insisted on they will give all their through emigrant business to the Santa Fe. It is believed, however, that the Southern Pacific will not insist.

At a meeting of Missouri Pacific railway employees at Hiawatha Sunday Judge Caldwell's name was loudly applauded.

The new Burlington bridge across the Missouri river at Leavenworth will be assessed for taxes by Leavenworth county. According to old government surveys the mile of approach at the east end is on "Leavenworth Island," Kansas.

The excursion of the returning ticket agents will reach Topeka on its way east Sunday afternoon at 5 o'clock in a section of No. 6. The train will consist of eight Pullman cars and a dining car, and two more dining cars will be added before reaching Chicago. W. J. Black, of the Santa Fe, will return with them.

A train of fifteen cars of bananas will leave Kingston, New Mexico, on the 26th bound for eastern and northern points.

Harry Weaver, Fred Connors, and Rob and Frank Merrick, of the Santa Fe officers, leave this afternoon for Cedar Grove on a four day trip.

Robert Craig, of Carbonate, superintendent of the Osage Carbon and Coal Mining Co., visited the Santa Fe offices this morning.

SHOPS AND OFFICES.

Some News Notes of Personal and General Interest.

Santa Fe dining-cars 1950 and 1953 are in the shops.

Very few railroad men are laying off just at present.

Santa Fe engine No. 492 left the shops for Wellington today.

Engineer Tom Jones of the Santa Fe, is off on a sick leave.

Sixty cases of fireworks came in over the Santa Fe from the east this morning, consigned to Topeka.

Six new refrigerator cars left the Santa Fe shops today for the south and west to bring back fruit.

W. E. Dauchey, assistant superintendent of maintenance and construction for the Rock Island, was in town today.

Richard Zakerman who lost a finger in the Santa Fe shops six weeks ago, returned from the Ottawa hospital today and will go to work soon.

A car each of oranges and bananas from California, consigned to Topeka, arrived this morning and are being unloaded by the local dealers.

At the gospel services at the railroad Y. M. C. A. rooms tomorrow afternoon State Secretary Frank Smith and Jesse Shaw will address the meeting. The male chorus will sing some new songs.

The Santa Fe shops base ball nine, the "Clippers," have reorganized for the year and would like to hear from any amateur team in or out of the city. The positions are as follows: Captain, S. Ash, catcher; M. Kitchen, pitcher; J. McGaffin, 1st base; A. Heck, 2nd base; J. Jenkins, 3rd base; J. Cummings, short stop; W. Easley, left field; D. Shannon, center field; B. W. Bailey, right field; E. Chase, substitute. The boys say they will be sure winners this year.

Lincoln Cooper has brought suit in the district court for a divorce from his wife, Agnes Cooper. A. L. Howe is named in the petition as co-respondent. Mrs. Cooper now resides at Holton.

WEAVER A KANSAN.

He Partially Denies That He is Going to Run for Congress Here.

General James B. Weaver is to be a Kansan according to the latest political story.

When General Weaver was in Kansas ten days ago a scheme was fixed among the Populists of the Sixth congressional district to have General Weaver move to Kansas, become a resident of the Sixth district and become the Populist candidate for congress to succeed Congressman Baker.

It is understood that Baker has agreed to decline a renomination providing Weaver will take the nomination.

By removing from Iowa to Kansas on the first of May General Weaver can acquire a residence in the state before the November election and the leaders of the party in the Sixth district believe he can poll 10,000 more votes than any man now in the district.

General Weaver was seen at his home in Des Moines last night. He objected to being interviewed, but admitted he was considering moving to Kansas, and from what he said it is thought he intends accepting the offer of the Kansas Populists.

A dispatch from Osborne says petitions are being signed throughout the Sixth district, asking Weaver to become the Populist congressional leader.

SEEKING THE BURLINGTON.

Mass Meeting of Citizens Held in North Topeka Last Night.

Much enthusiasm marked the meeting held at Lukens' opera house last night in answer to the call of the Commercial club. The attendance was large and included prominent citizens from all over the city, and a number from surrounding towns.

The main points developed by the meeting were:

That the L. T. & S. W. railroad is not operating, but should be. That the Santa Fe has a road to Leavenworth by way of Wilder, and the Union Pacific has one by way of Lawrence, hence neither have any use for this road, and have not had except to keep out rival lines.

That the first thing necessary is to get the road in the way of being sold and then induce the Burlington to buy it.

The first part of the work is already acknowledged as Judge Caldwell yesterday appointed C. L. McClellan of this city, receiver of the L. T. & S. W. railway on application of the American Loan & Trust company of Boston. The receiver is a division superintendent of the Santa Fe and his appointment appears like a bluff intended to keep the Burlington out.

It is well understood that during the time this road has been operated by the Santa Fe and the Union Pacific they have studiously avoided making the road pay expenses. Every bit of traffic by this line was so much taken from their other lines, so the only business it got was a little local.

In opening the meeting last night, Chairman William Green said: "This is a citizens meeting, though under the auspices of the Commercial club. There is a strong feeling favorable to the extension of the Chicago, Burlington & Quincy to this city. This meeting is the outgrowth of that sentiment. It has been said that already that some one is getting money out of this movement. I hope it is so. I should be glad to know that the Burlington road is sufficiently interested in this matter to put up money to have it agitated."

S. S. Army was called upon to recite the proceedings of the previous meeting, which he did.

Sam Dolman said he had been in correspondence with officials of the road, and from the answers received believed they had in contemplation an extension of the road to this city if properly encouraged.

D. C. Tillotson followed with an interesting talk. He said:

"All we can do is to show our good will. Railroads that have come here have every reason to be satisfied with Topeka, and Topeka has no reason to complain of her railroads. They are paying their way, and are getting good returns on their investments as far as Topeka is concerned."

Marshall Gephart of Oskaloosa said that what the people of Jefferson county wanted more than anything else was to have the L. T. & S. W. operated, so they could come to the capital of the state by rail without coming through Missouri.

Thomas L. Bain thought that what we want more than anything else is river rates—Kaw river—not Missouri river.

The meeting was addressed in much the same vein by C. P. Bolmar, J. S. Collins, Simon Greenspan, Mike Heery, Judge Day, Harry Safford and others.

On motion of Sam Dolman the following resolution was adopted:

Resolved, That any time in the near future that your road desires to extend your line to Topeka that a committee of leading citizens will meet you at Topeka or any other point in the west that you may designate, to consult ways and means by which we can assist in the success of the much desired connection of your road with the city of Topeka.

The following resolution was offered by D. C. Tillotson and adopted:

Resolved, That a committee of five be appointed by the chair to take such steps as may be necessary to secure the operation of the Leavenworth, Topeka and Southwestern.

On motion of H. C. Safford and C. P. Bolmar was instructed to correspond with G. E. Manchester and ascertain the feeling of the Burlington towards the city of Topeka.

Chairman Gunn said he would announce the committee in a few days, and the meeting adjourned subject to call of the chairman and the committee to be appointed.

The funeral of the late C. F. Kendall will take place at the parlors of the Copeland hotel, Sunday at 2:30 p. m. The friends of the family are invited to be present. The burial, however, will be private.

Peculiar to Itself.
So eminently successful has Hood's Sarsaparilla been that many leading citizens from all over the United States furnish testimonials of cures which seem almost miraculous. Hood's Sarsaparilla is not an accident, but the ripe fruit of industry and study. It possesses merit "peculiar to itself."

Hood's Pills cures Nausea, Sick Headache, Indigestion, Biliousness. Sold by all druggists.

R. I. Lee stallions, sire of Champion Speed, can now be found at Topeka fair grounds.

IS THERE NO HELP?

A Hard Working Business Man Makes this Appeal.

AN IMPORTANT QUESTION.

He Receives a Clear, a Truthful and a Most Valuable Answer, Which Is of Interest to All.

"Is there any remedy for extreme emaciation? Is there any way by which a thin weak person can be made fleshy and strong?"

These interesting questions were recently addressed to a leading medical journal by a hard-working business man. His health had become greatly run down by reason of over application, long hours and other excesses which tend to reduce the weight. The consequence was he found himself a sufferer from indigestion, dyspepsia and faulty assimilation, followed later by catarrh of the bowels. The food he ate did not give a tenth part of the nourishment it ought to have given. His blood became thin, his flesh wasted away, until he was reduced to a mere shadow of his former self. The fact was, he was dying from sheer starvation.

The editor of the medical journal became interested in this case and gave it earnest attention. The result was that he forwarded some sound advice to the sufferer. He told him something which if it were generally known would save an immense amount of sickness, weakness and suffering. What the editor said was this:

"We advise you," he wrote, "to take a pre-digested food; that is a food capable of being absorbed by the system directly it is swallowed, thus imparting nourishment to the body in spite of the stomach. This will give your stomach a rest and enable it to recuperate. It will also prevent the accumulation of undigested food, which causes the constipation and other distressing symptoms of which you complain. It will build up your system as nothing else can do. It will increase your weight, give you new strength and make a well man of you. Now, there is only one food of this kind. It is known as 'Paskola' the flesh-forming food. It is a great scientific preparation, something totally different from anything ever before introduced. Its effects are remarkable. Paskola is now recognized as a perfect substitute for cod liver oil and all other old fashioned remedies. It is easy and pleasant to take. It is grateful to the most delicate stomach. From what we have seen of its effects we are confident that it will not only give you relief but increase your weight in a very short time."

The business man followed this advice. Today he is in splendid health. All his old ailments have departed, his former strength has returned, and instead of weighing 110 pounds he tips the scales at 140. He never wearies of telling about what Paskola has done for him, and his friends repeat the story.

This is but one instance of what Paskola has done for thin, weak, debilitated people. Thousands of others might be mentioned. Certain it is that as a flesh former and remedy for distressing stomach trouble it is unsurpassed. Loss of flesh is a sign of disease. Half the ailments of the human race spring from disorders of the stomach. The way to relieve all symptoms tending to these conditions is to take a perfect pre-digested food. Paskola is the only food known to medical science that thoroughly conforms to this high standard.

A pamphlet giving full particulars respecting Paskola will be sent on application to the Pre-Digested Food Co., 30 Reade St., N. Y. City.

DISPENSARIES CLOSED.

Gov. Tillman Acquiesces in the Decision of the Supreme Court.

COLUMBIA, S. C., April 21.—Every dispensary in the state has received orders to close immediately as the result of the governor's acquiescence in the supreme court decision. It is the opinion of the attorney general that the decision invalidates the unrestricted sale of liquor, but a test case will soon be brought to decide the question.

The general impression is that the governor will call an extra session of the general assembly, pass a new law, and then take it up to the supreme court, which on July will be Tillmanite in politics by the qualification of Justice F. B. Gary. In that event the court will reverse its decision.

Since the Darlington episode the whisky constabulary have been comparatively inactive. No raids, either of stores or private residences, have been attempted anywhere in the state.

L ROAD IN BUILDINGS.

Elevated Roads in Chicago to Run Through Second Stories of Buildings.

CHICAGO, April 21.—The Northwestern elevated road in this city announces that it will enter the business district by literally penetrating the large buildings. It will condemn a strip forty feet wide, arcade fashion, through the second stories of the business section.

The structure of the road will be supported on an independent foundation of pillars and the space over and under the tracks will continue to be utilized as at present for offices, stores and shops. Trains will be run by electricity.

TOPEKA SECRET SOCIETIES.

Irwin lodge No. 290, conferred the junior workman degree on the candidates Thursday evening.

Shawnee lodge No. 244, conferred the junior workman degree on two candidates last evening.
